DETAILED ACTION

1. This office action is in response to the Amendment filed January 08, 2004.

Accordingly, claims 10, 12-14, 19, 22, 24-26 and 28 were amended, and claims 1, 3, 11 and 23 were cancelled. Currently, claims 10, 12-22 and 24-29 are pending in this application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roland E. Long, Jr. (Reg. No. 41,949) on 01/27/2004.

In the claims:

Claim 10:

In line 20, after "the rear case," delete "and,"; and after "wherein" delete ",", and insert --:--.

In line 21, after "a substrate" delete ",", and insert --:--.

In line 24, after "upper surface of the rear case" delete ",", and insert --:--.

Claim 22:

In line 20, after "the rear case," delete "and,"; and after "wherein" delete ",", and insert --:--.

In line 21, after "a substrate" delete ",", and insert --:--.

Art Unit: 2871

In line 23, after "receiving the substrate" delete "," and insert --;--.

Allowable Subject Matter

3. Claims 10, 12-22 and 24-29 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claims 10 and 22, none of the prior art of record discloses, in combination with other limitations as claimed, a liquid crystal display comprising:

a lid covering the second notch section from a bottom surface of the rear case, wherein:

the liquid crystal display panel includes a substrate;

the second notch section is formed as a storage portion receiving the substrate;

and

the substrate is located intermediate the lid and the liquid crystal display panel within the storage portion of the second notch section.

The most relevant reference, USPN 6,411,359 B1 of Kobayashi et al., fails to disclose or suggest a lid covering the second notch section from a bottom surface of the rear case and the substrate being located intermediate the lid and the liquid crystal display panel within the storage portion of the second notch section. The Kobayashi et al.'s reference only discloses a lid PCB covering the top of the second notch and the substrate FPC2 being located within the storage portion of the second notch section below the lid a second notch as shown in Fig. 32.

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
